Sem Wester

Embedded & software engineering student

sem514@hotmail.com
Opmeer, Noord-Holland
semwester.nl

HBO-ICT student at the Amsterdam University of Applied Sciences (HvA), Technical Computing track, focused on robotics and embedded systems. Three years of professional .NET development alongside my studies.

WORK

Feb 2025 to Jul 2025
Intern, Rolan Robotics

Sep 2023 to now
Junior software developer, Het Keukenmagazijn
Building and maintaining mostly internal .NET applications. Full-time (40 hours a week) from August 2023 to September 2024, now 24 hours a week next to my studies.

Jul 2020 to Aug 2023
Warehouse employee, later weekend shift lead, Het Keukenmagazijn
Started as a summer job and grew into leading the weekend shift. Moved on to the IT department to support and automate the logistics processes.

EDUCATION

Jul 2025 to Nov 2025
Minor (semester abroad), Queensland University of Technology, Brisbane

2022 to now
HBO-ICT, Technical Computing, Amsterdam University of Applied Sciences (HvA)
First-year diploma in one year. Mathematics B crash course, August 2022.

Sep 2021 to Aug 2022
Business Administration, Amsterdam University of Applied Sciences (HvA)

Sep 2016 to Jun 2021
HAVO, Oscar Romero, Hoorn

ABOUT

I work well in a team and get things done on my own. Outside work and study I play football at VVS'46 and head to the mountains for winter sports whenever I can.

HIGHLIGHTS

- Three years as a .NET developer at Het Keukenmagazijn, next to a full-time degree
- Gap year spent working full-time (40 hours a week) as a .NET developer
- First-year diploma (propedeuse) completed in one year
- Internship at Rolan Robotics (2025)
- Minor at Queensland University of Technology, Brisbane (2025)
- Used to a high workload: 24 hours of work a week alongside full-time study

EMBEDDED & ROBOTICS

C / C++
ESP32 (ESP-IDF and Arduino)
(Industrial) IoT

SOFTWARE

C# / .NET
Java
Microsoft Power BI

INFRASTRUCTURE

Docker
nginx
IIS
Linux
